

GLOBAL CHALLENGES RESEARCH FUND (GCRF) SEMINAR

Everything you need to know about GCRF

the fund that promotes the economic development and welfare of people in lower and middle income countries

- Learn more about the £1.5 billion Global Challenges Research Fund
- Learn first-hand about ODA compliance
- Explore tips and advice on how to write fundable GCRF proposals
- Be prepared for the next funding announcement

Panel of expert speakers

Gordana Najdanovic - Research Strategy Manager & Funder Relations (Research Strategy Office)

Kate Parsley – Impact Facilitator & BBSRC GCRF IAA Co-ordinator (Bioscience Impact Team)

Howard Griffiths – Physiological Ecologist & Professional PI in getting GCRF funding

Luke Braidwood – Researcher & successful awardee of GCRF award

The event is open to all research staff and is suitable for those from Plant Sciences and SLCU with (and without) experience of international development research and who are interested in exploring new opportunities for their research. **Any researchers considering an application for GCRF funding are strongly encouraged to attend.**
